Dear Dale

Mclean Park Cricket Nets

The Denmark Cricket Club has previously made a request for funding for the replacement of the synthetic cricket wickets at the Mclean Park nets. The cost of replacing the synthetic turf on the existing nets with new full length synthetic turf is \$5,860 plus GST = \$6,446. The request has previously been declined.

The Denmark Cricket club is willing to make a contribution of \$1,500 towards the completion of this project. These nets are also used by junior cricketers, social cricket teams and the general public. The current synthetic turf is well past its normal life and is in an unsatisfactory and unsafe condition.

We request that this project be reconsidered in light of the willingness of the Denmark Cricket Club to contribute to this project.

Yours Sincerely
Peter Ross – Secretary Denmark Cricket Club
