Ms A Harbron  
Director of Planning & Sustainability  
Denmark Shire  
South Coast Highway  
Denmark WA 6333

Dear Annette

RE: Application for Extension at Denmark Rivermouth Caravan Park

Thank you for your emails regarding our proposed extension to our reception/check in area. I hope I have answered your queries correctly.

*Having regard to Clause 12(a) of the current lease, can you please clarify in writing and on an amended floorplan(s) the exact use and function of the proposed building and the existing building once the proposed building is built – noting there are references of a kiosk, discovery centre (what is this??), reception/administration on the plans. This information is required to ensure that the current use of the premises is consistent with the purpose as defined by the lease and will also be required from a Building Code of Australia perspective to ascertain what development requirements (if any) will apply and a Town Planning Scheme perspective in terms of any development requirements that may apply (i.e. car parking)*

Looking at the plan, which we have identified the left side marked discovery centre will be used for a kiosk for the supply of **take away food**, goods and equipment normally required by caravanners, campers and other members of the public resorting to and/or using the premises as a holiday resort.

The area will include information about Denmark, information and hiring of our recreational equipment such as kayak, paddleboards, paddleboats, and cruise boat.

The existing building will be used for storage, washing and ironing of linen and bedding for chalets, kitchen and laundry and staff room.

*From the information provided to date it is apparent there is a kiosk function to be provided – please provide more details on how this is envisaged to operate for depending on extent of provision of food and numbers there may be a requirement for public sanitary facilities to be provided as per the Building Code of Australia.*

The kiosk will be used for take away food and confectionaries – I do not envisage an established restaurant.

These items are required by our patrons of the park.

On the proposed extension we hope to position 4 outdoor tables to be located in the undercover area being the veranda, these will seat approximately 24 people, so that they can comfortably enjoy the surrounds.

From the proposed extension there is existing public sanitary facilities one located no more than 60 metres away, (this is located on Smith Brothers Foreshore). And the other being the caravan parks ablution block from the proposed extension is approximately 30 metres away.

*As advised last week by Graham Blackmore, Shire's Principal Building Surveyor, the proposed building will need to comply with Access for People with a Disability – the current plans do not appear to show how this can be accommodated. Can you please advise how you envisage disabled access into the building being provided and depending on your advice it may be that an amended plan is required to be lodged at this early stage for it may result in a slightly altered design in terms of layout, aesthetic design etc. depending on what is proposed in this regard.*

As discussed with Mr Blackmore, the existing bathroom has a toilet located within, this can be utilized as a disabled facility.

On the left hand side of the building there will be concrete footpath in excess of 1.2metres wide to give access to the front veranda.

*The floor plan submitted (copy attached) makes reference to the existing front verandah on the existing building being removed; noting the arrow is pointing to the verandah that appears to be on the side of the building and is to be retained from the elevations provided – can you please clarify the situation in this regard and if required amend the floor plan accordingly (noting that this has only been requested as amended floorplan(s) is required by Bullet Point 1 so best to just address this issue now).*

The veranda that will be required to be removed from the existing building is marked on the plan elevations A-03.

*Details of signage proposed for the development – noting that this is to be approved by the lessor as per Clause 15(a) of the current lease.*

With the intended building we intend to put the name of the caravan park on the parapet located at the front of the building, this is to help patrons identify the reception area.

*Should any modifications to the floor plan require amended elevations/perspective can you please provide updated plans?*

*Please advise what is to happen to the current kayak storage that is located at the front of the current grassed area if this development is approved.*

Our kayaks will be shifted and will be stored in the caravan park.

Once again we would like to thank you for your prompt attention to our application.

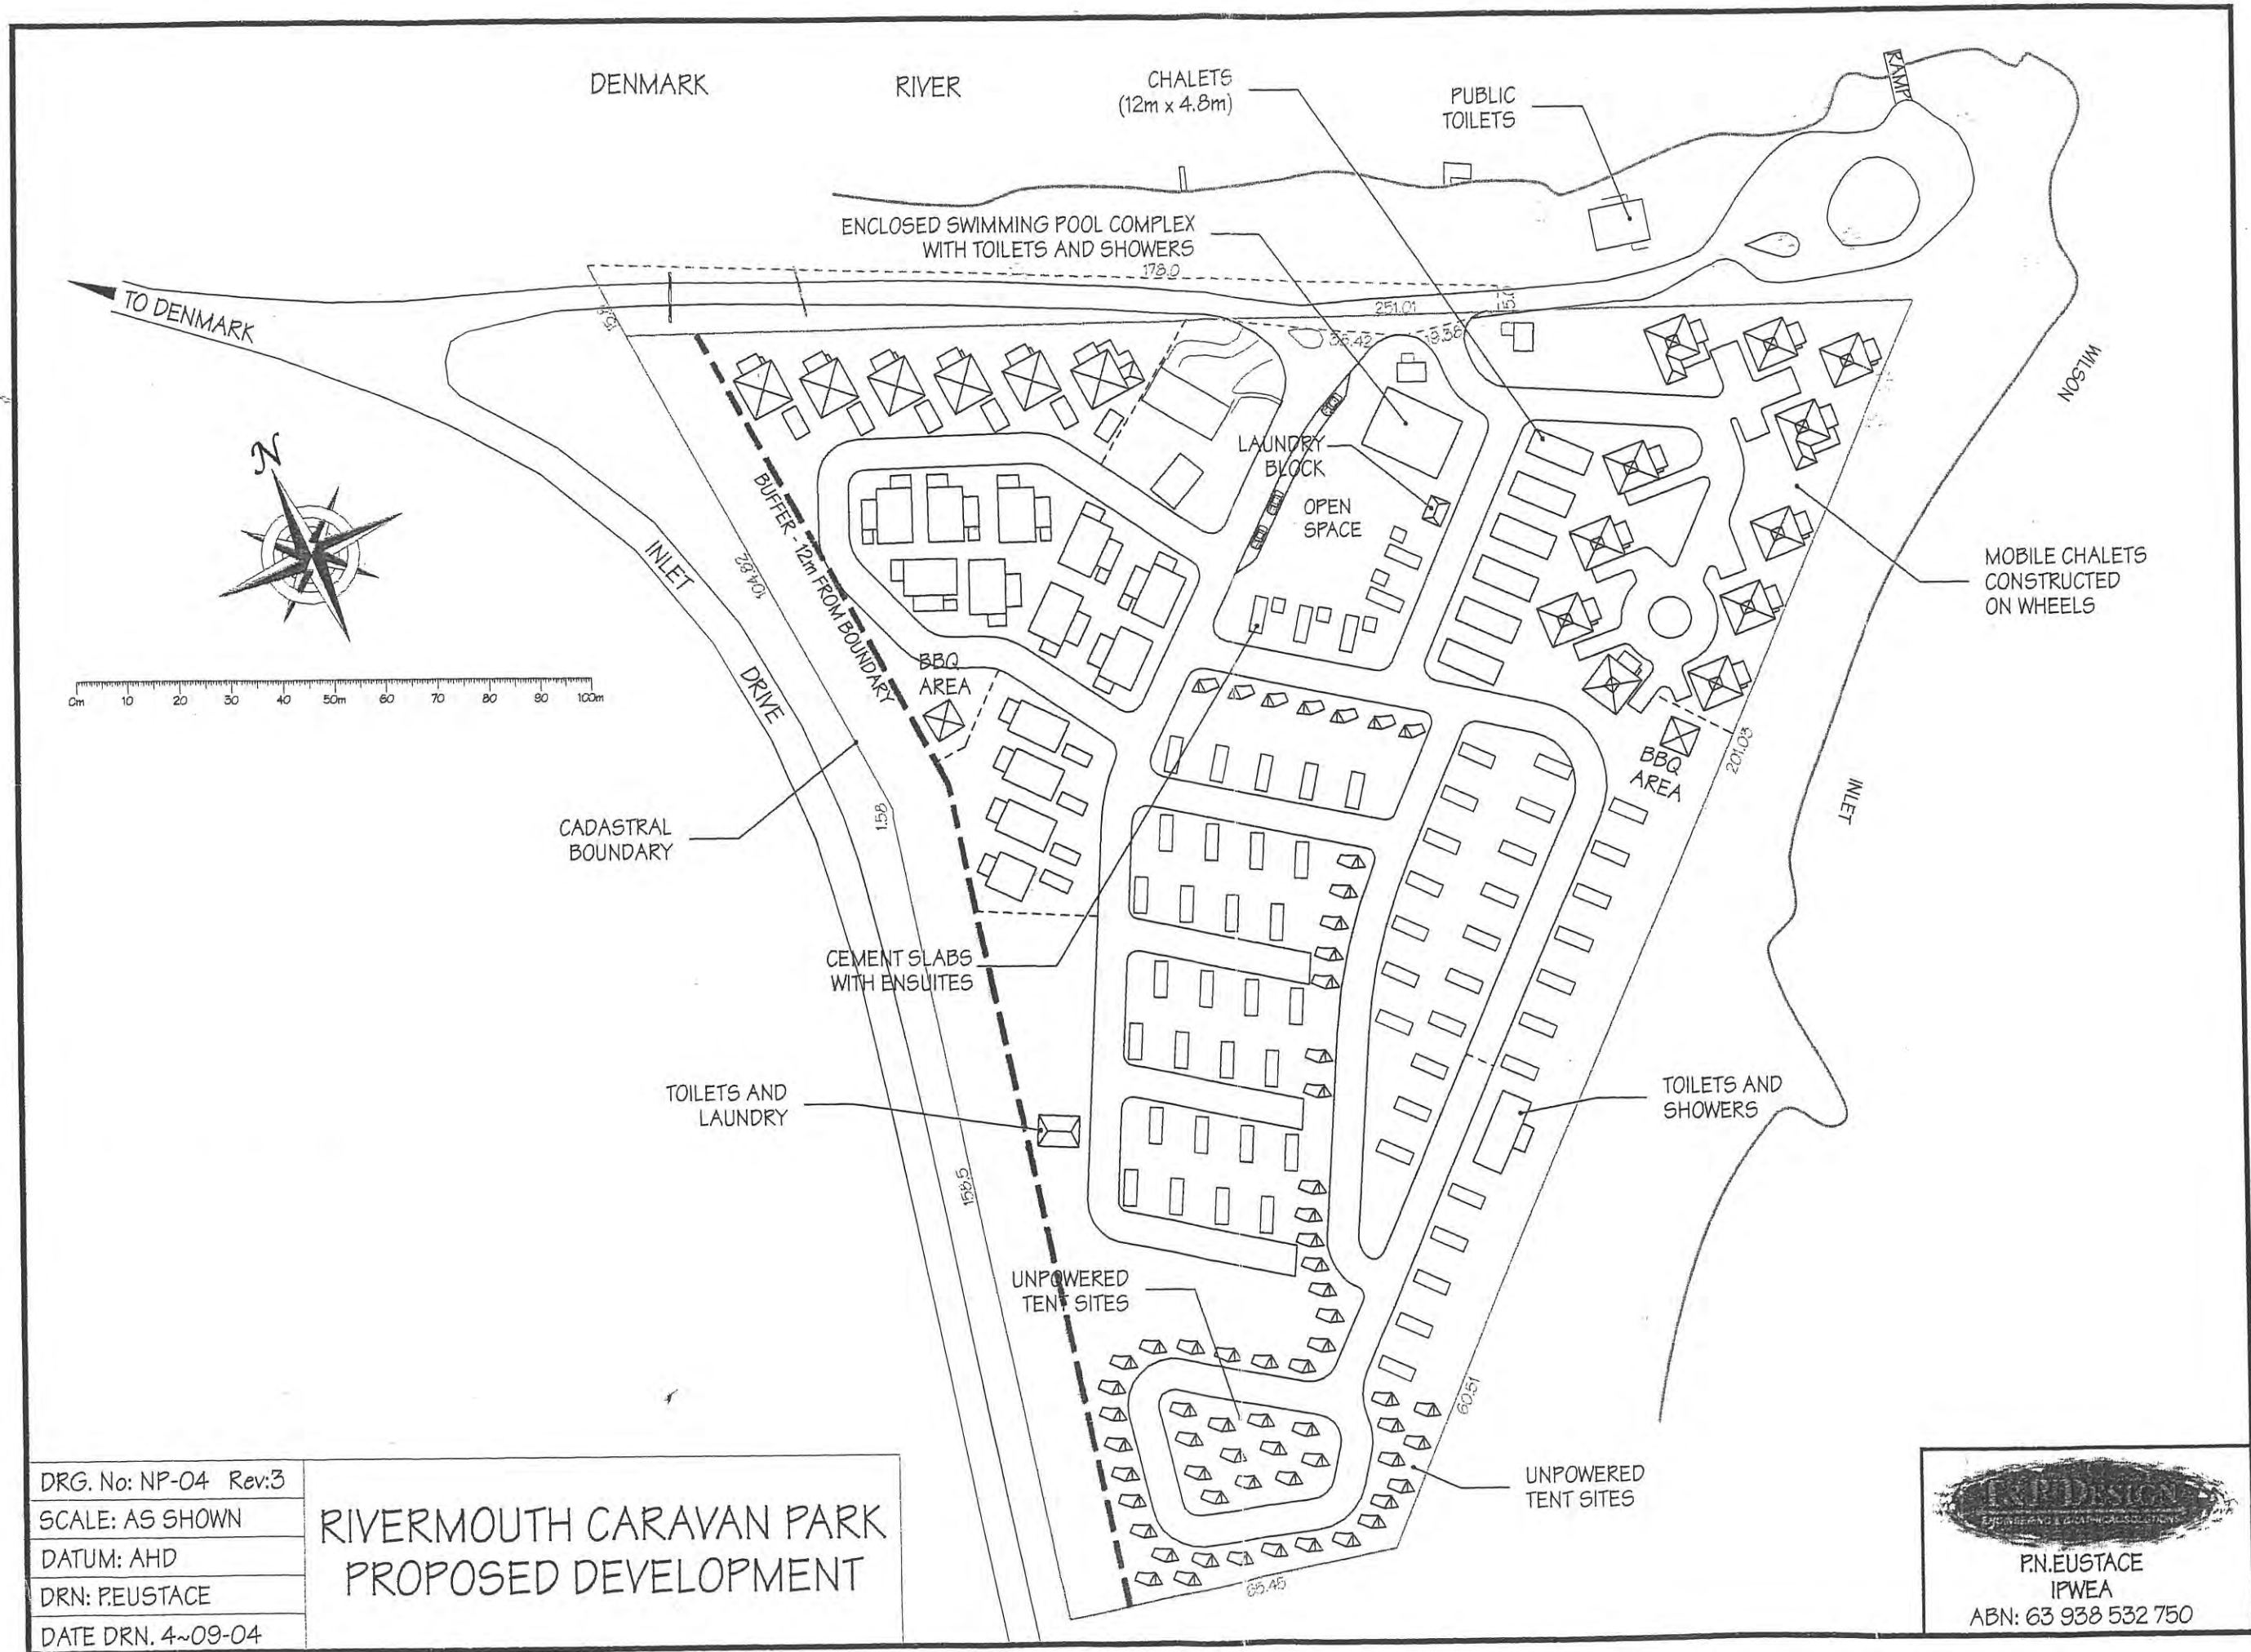

If you have any further queries please do not hesitate to contact me again, I will arrange the payment of \$320.00 today.

Kind regards

Noel Phillips

**9.1.5 PROPOSED KIOSK – RIVERMOUTH CARAVAN PARK**

<b>Location:</b>	Lot 1084 (Reserve 46421) Inlet Drive
<b>File Ref:</b>	A1324
<b>Disclosure of Officer Interest:</b>	None
<b>Date:</b>	8 October 2007
<b>Author:</b>	Thomas Sounness – Senior Planning Officer
<b>Senior Officer:</b>	Phil Shephard - Manager Planning & Development

**Summary:**

An application for a kiosk, refreshment/TV room and communal area for patron and public use has been received for the above land.

It is recommended that the facilities be approved subject to the kiosk component being restricted to service park patrons only.

**Background:**

Council at its September 2004 meeting resolved to approve an overall Development Plan for the Rivermouth Caravan Park (copy attached). The proposed area of land was shown as a BBQ Area on the originally adopted Development Plan.

**Comment:**

The land is zoned Tourist under the Shire of Denmark Town Planning Scheme No. 3. The adopted Development Plan is intended to guide Council's decision making in regards to the caravan park.

The applicant has now requested approval to increase the use and size of the previous BBQ Area to include a 15m x 18m building to include a kiosk, refreshment/TV room and communal area for patrons of caravan park and public. This includes the request to transfer the existing small grocery & confectionary sales from the existing shop/kiosk to this new area.

The location for this structure is consistent with the adopted Development Plan however the description under this plan shows 'BBQ area'.

While the operation of incidental grocery sales to caravan park residents is considered to be a standard part of any caravan park operations, introducing a shop element available to sell any manner of goods to the general public is not consistent with the adopted Development Plan or zoning of the land.

A Kiosk is defined in the Collins Dictionary (1983) as: "a small sometimes movable booth from which cigarettes, newspapers, light refreshments etc. are sold." The proposal is far more substantial than a kiosk envisages, and in this case is considered to be a shop.

Staff do not believe that a shop is a land use that should be permitted in this case as there appears to be no additional need for such an activity close to Denmark and its commercial services. The scheme also does not nominate how a BBQ area should operate, nor if such an area should include a kiosk, TV area or ablution areas.

**Council's options are:**

- 1) Approve the proposal (including the relocation of the kiosk use as being minor and incidental) and approve as is subject to conditions.
- 2) Approve the proposal subject to the use being restricted to BBQ area (to be consistent with the adopted Development Plan).
- 3) Refuse the application for reasons of non-compliance with the adopted Development Plan.

**Consultation:**

The proposal has not been subject to any public consultation.

**Statutory Obligations:**

- Planning and Development Act 2005 – Town Planning Scheme No. 3 is an operative town planning scheme under the Act.
- Town Planning Scheme No. 3 – land is zoned Tourist under the scheme.
- Caravan Parks and Camping Grounds Act and Regulations – the caravan park is required to

conform to those requirements set out in the Act/Regulations.

- Land Administration Act – land is a crown reserve vested in Council for Caravan Park and Camping and leased to the proponents for a maximum term of 21 years.

**Policy Implications:**

Nil.

**Financial Implications:**

Nil.

**Strategic Implications:**

Nil.

**Environmental Considerations:**

Any development of this nature should be connected to reticulated sewerage and water. Given the requirement to have a minimum floor height of 2.5m AHD some fill may be required which may affect drainage.

**Voting Requirements:**

Simple majority.

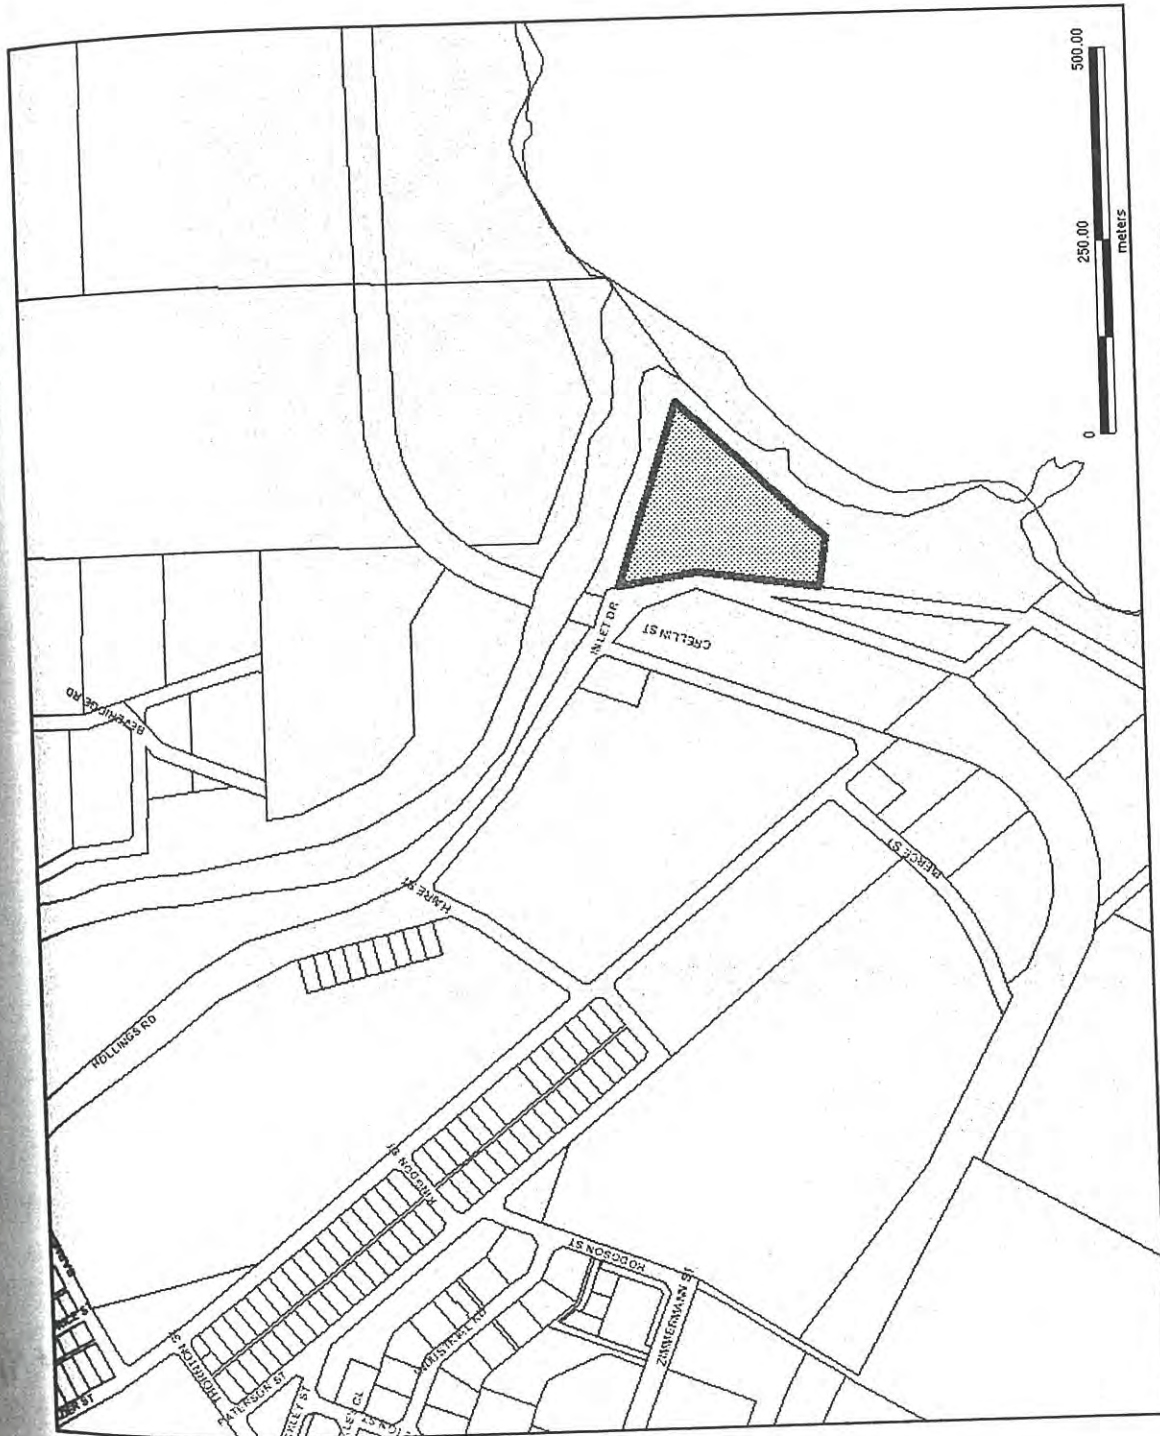

<b>COUNCIL DECISION &amp; OFFICER RECOMMENDATION</b>		ITEM 9.1.5
MOVED: CR DEMPSTER	SECONDED: CR STOKES-HUGHES	
That Council grant planning consent for the relocation of the existing kiosk and development of a new refreshment/TV room and communal area for the use of patrons of the Rivermouth Caravan Park only subject to the following conditions:		
<ol style="list-style-type: none"> <li>1) This approval is for the relocation and modest expansion (maximum 20m<sup>2</sup>) of the existing kiosk function to the new building.</li> <li>2) This approval does not permit either the development of a shop, fast food outlet or restaurant or other similar use offering goods and services directly to the public.</li> <li>3) The development being connected to reticulated water and sewerage.</li> <li>4) The development being constructed at a minimum building height of 2.5m AHD as required by clause 5.27.3 of the scheme.</li> <li>5) No direct access from the building to the foreshore is permitted and the reserve boundary with the inlet being marked with an open style boundary fence to a maximum height of 900mm. Detailed plans are to be approved by Council's Engineering Department prior to any works commencing.</li> <li>6) The proponents indemnifying Council against any possible claims that may result from a flood event over this land.</li> <li>7) Completion of a Food Premises Notification Form to the satisfaction of the Environmental Health Officer.</li> </ol>

Mr P Durtanovich  
 Denmark Shire  
 South Coast Highway  
 Denmark WA 6333

Dear Pacoe

We would like to submit to council an application to build a kiosk/refreshment room at the Denmark Rivermouth Caravan Park. This building will be built from materials that will blend in with the surrounds and enhance the area.

As you can see from the plans that we have submitted with this application you will see that the kiosk/refreshment room will be situated on the eastern side of the caravan park, looking out over the Wilson Inlet. The AHD level will be brought up to the required level of 2.5m, as recommended by council in previous submissions.

This will be built instead of the gazebo/BBQ area which was indicated on our first plans.

Our existing reception area of the caravan park is not sufficient to cope with the influx of holiday makers, as well as selling small grocery and confectionary items. Therefore we would like to remove the grocery/confectionary items from the existing shop/kiosk and relocate them to the new kiosk/refreshment room.

We would like you to refer to our lease agreement with the Denmark Shire and Jenbrook Nominees,

Page 17, Item 12(a)

*To use the Premises only for the purpose and not to carry on or permit to be carried on at the Premise any trade or business other than that of a caravan and camping park, including a refreshment room and kiosk for the supply of food and goods and equipment normally required by caravanners, campers, and other members of the public resorting to and/ or using the Premises as a holiday resort without the prior consent of the Lessor*

Should council grant the application, we will have the plans submitted to the building surveyor.

We would like this matter to be submitted and dealt with as soon as possible as we would like to have this facility up and running before this coming holiday season.

Yours sincerely

Noel Phillips
