Summary

The Long Term Financial Plan (LTFP) serves as a strategic roadmap, aligning our Shire's resources with our community's vision and aspirations outlined in our Strategic Community Plan, Our Future 2033.

Required by the Local Government Act (1995), it's a 10-year plan that guides decision making on projects and budget allocation. This plan is pivotal, influencing other key documents such as the Corporate Business Plan and Annual Budget, ensuring that our actions are aligned with the priorities set in our Strategic Community Plan Our Future 2033.

Figure 1 - Shire of Denmark - Planning and Reporting Framework

Management recommended reviewing the existing 2021 LTFP while assessing the 2023/2024 finances. This review took into account several factors:

- Feedback from the 2023 Strategic Community Plan review and Community Scorecard.
- The effects of global supply shortages, COVID-19 stimulus packages, and inflation on the Shire's operations, revenue, and financial forecasts in the past two years.
- A continuation of a tight labour market and expected wage pressure.
- Outcomes and timeline changes for major project funding.
- Accounting for the revaluation of building, land and road assets conducted in the past two years.
- The need to reevaluate capital works projects to tackle emerging asset renewal challenges.

This LTFP recognises the need for increased funding directed towards the renewal of capital assets which is essential to maintain our Shire's assets' functionality and efficiency. Our Council supports the LTFP guiding principles, aimed at addressing the existing gap in asset renewal. As such, revenue and expenditure is structured to ensure the future renewal of assets within their expected useful life, with rating revenue adjusted above the Consumer Price Index (CPI) to cover the asset renewal gap. These principles are designed to ensure funding commitments better match asset depreciation. It's crucial to closely monitor and manage operations to uphold the current level of expenditure within a constrained financial environment.

Based on the 2024 LTFP, we are projected to achieve the following outcomes:

- Rates increase in line with CPI, with an additional contribution aimed at addressing the asset renewal gap, intending to bring it back under control within ten years.
- Forecasted total new borrowings amount to \$2.825
- Capital expenditure is estimated to be \$58 million.

Updates to Ocean Beach community facilities are included, as is the redevelopment of Berridge Park public amenities and youth precincts, and upgrades to oval facilities to ensure there are enough playing fields for sports groups. Our Shire Depot will also undergo muchneeded upgrades, replacing old buildings, while focusing on creating a workplace that demonstrates environmentally sustainable water and waste treatment. Additionally, there will be a focus on planning for a future electric fleet.

This strategic plan demonstrates a commitment to fulfilling our community's aspirations while managing finances responsibly. By making asset renewal a priority in our long-term strategy, we recognise the vital role that our road network, community buildings, parks, and reserves play in promoting community well-being. Moreover, the emphasis on setting realistic and achievable targets in capital works programs highlights our understanding of the importance of securing grant funding to achieve our goals. Through this balanced approach, we aim to address our community's immediate needs while laying the groundwork for sustainable growth and prosperity in the years ahead.

Long Term Financial Plan Background

The LTFP relies on data from the 2023/24 Annual Budget to establish our Shire's current financial position. From there, it projects a ten-year plan, assuming optimal staffing levels and maintained service standards. The plan incorporates future directions informed by various aspects such as:

- Strategic Community Plan priorities and initiatives
- Corporate Business Plan actions and initiatives
- Asset Management Plan for land and buildings, transport and recreation infrastructure
- Workforce planning
- Capital project plans and proposals
- Plant replacement programs
- Information communication and technology renewal and upgrade program
- Projections for consistency in or changes to the proposed range of services
- Discretionary capital revenue projections
- · Anticipated government grants and subsidies.

Key elements in long-term financial planning include operational service delivery, asset renewal, upgrade and replacement, and discretionary capital projects. **Operational service delivery** ensures consistent and reliable services to our community over the plan's duration.

Asset renewal planning ensures infrastructure maintenance to agreed standards, while asset upgrades usually involve significant enhancements to community buildings and facilities.

Capital projects encompass significant new projects emerging from master planning exercises, such as new buildings or infrastructure and facility redevelopment. The LTFP's capital works timeline outlines these projects.

Assumptions related to financial modelling parameters, projects, or service proposals may later prove to be imprecise, particularly regarding funding opportunities, timing, or financial estimates. This uncertainty increases the possibility that a project might unfold differently than anticipated. The LTFP is formulated based on the best available information and is subject to continuous review and revision.

Endorsing the LTFP doesn't commit the Council to specific projects, services, or timelines, nor does it preclude additional initiatives in subsequent years if financially viable and aligned with our Shire's strategic direction.

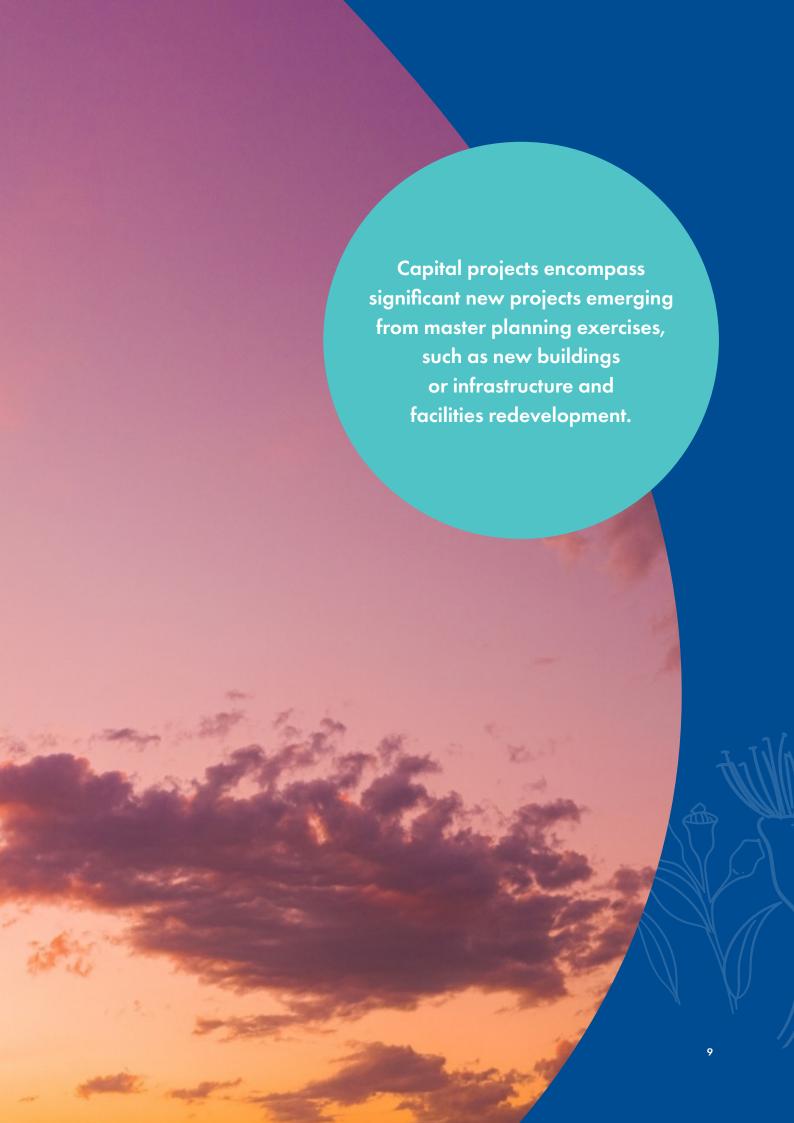

Capital Projects

Timeline 2024 2024 the Ocean Beach 2024-2026 2025 Shire Works Depot 2025-2027 2026 2027 2028 2028-2030 2029 2029-2030 Waste Facility upgrade Facilities upgrade to 2030 In this plan, several capital works projects originally planned in the 2021 LTFP have been reevaluated and reprioritised. This adjustment stems from factors such as cash 2031 flow, property revaluations, and the need to address more pressing priorities within the available resources. 2032 The decision-making process behind this recalibration ensures that limited financial 2032 McLean Park Recreation resources are focused on initiatives that Centre upgrade closely align with current needs and strategic objectives. Projects temporarily set aside will not be forgotten, instead, they will be continuously monitored and

assessed for potential inclusion in future

iterations of the LTFP.

Basis for Preparation of the Long Term Financial Plan

Guiding principles form the foundation of the LTFP, ensuring consistency and providing a framework for decision making over time. The guiding principles are:

- 1. The LTFP is a key strategic document which aims to achieve the goals outlined in Our Future 2033.
- 2. Both the LTFP and the Corporate Business Plan guide the development of the Annual Budget.
- 3. Financial sustainability and accountability are maintained through an annual balanced budget.
- 4. Reserve funds are preserved to fulfill their intended purpose.
- 5. Revenue and expenditure are structured to ensure the future renewal of assets within their planned useful life.

- 6. Debt funding may be used for capital works or asset purchases, but not for operating activities or recurrent expenditure.
- 7. The LTFP manages the asset base to meet community needs identified in our Strategic Community Plan.
- During the biennial review of the LTFP, our Council remains responsive to prevailing economic conditions, adjusting capital project timeframes to support the local economy.
- 9. Rate revenue will be adjusted above the WA Consumer Price Index (CPI) to recover the asset renewal gap.

External Influences and

Key Risks

Economic Conditions

Since the adoption of the 2021 LTFP, local governments have faced challenging economic conditions, including the aftermath of COVID-19 stimulus packages and global supply chain disruptions. These factors have led to significant increases in construction costs and inflation pressures. Although these pressures are starting to stabilise, some prices remain historically high, particularly for inputs like fuel and road materials, with no expectation of a return to pre-pandemic levels. Additionally, wage growth pressure is expected to persist in the short to medium term, posing challenges for local governments.

To responsibly manage our commitments outlined in the LTFP, our Shire should regularly review its financial position, project funding strategies, and monitor the economic environment for timely and appropriate interventions.

Since the 2021 LTFP, there has been a noteable rise in interest rates. While this has had a positive impact on interest revenue, it has also presented challenges for borrowing conditions related to capital projects. It's important to recognise that interest rates and inflation are interconnected, with interest rates being a primary tool used by the Reserve Bank of Australia to regulate inflation. For a local government, recognising the interconnection between interest rates and inflation is significant as it impacts our ability to manage budgets, borrow funds for projects, and plan infrastructure developments effectively.

State and Federal Funding

Our heavy reliance on project funding from State and Federal sources poses a risk that future funding may not materialise or may deliver less than expected, necessitating significant adjustments to the capital works program. Operational risks include potential reductions or loss of funding for existing community services, changes in government policy, or cost-shifting from state to local government. These risks require ongoing management on a case-by-case basis as they arise.

It is widely recognised within local government that funding from the Commonwealth through Financial Assistance Grants has failed to keep pace with rising costs. This is particularly evident with General Purpose Grants, which only increased by 3.4% per person for the Shire of Denmark between 2019/20 and 2023/24. In comparison, the national CPI (quarter ending Sept 2023) increased by 19.9% over the same period (see table below).

Local Road Grant funding saw an increase of 14.25%, adjusted for the local population. This discrepancy between funding received and inflation means the purchasing power of General Purpose Grants has effectively decreased in real terms, as they haven't kept pace with the rising costs of goods and services. Consequently, our Shire faces mounting pressures to maintain essential services, infrastructure, and community programs with limited financial resources.

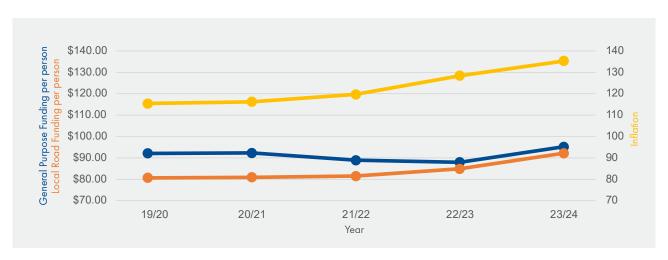

Table 1 Commonwealth Financial Assistance Grants per Person (Shire of Denmark) against Inflation

Asset Values

Asset valuations were conducted in 2022/2023 as part of our five-year condition assessment strategy. These valuations help determine the carrying value of recorded assets, considering price movements in materials and labour to reflect fair value and replacement cost accurately.

The updated valuation revealed a substantial rise in infrastructure value, primarily driven by higher unit costs following the economic fallout from COVID-19. Bridge infrastructure saw a significant surge, with a 64% increase since 2018 valuation due to escalating construction prices. Other asset categories, like parks and reserves, also increased, reflecting more precise data collection compared to previous valuations.

While the 2022 building and land audit preceded notable inflationary impacts, asset valuers expressed concerns about potential market uncertainty, on the back of the Reserve Bank's decision to commence interest rate hikes in June 2022. As a result, valuations from 2022 may not accurately reflect prevailing market conditions.

The table below illustrates notable fluctuations in asset valuations, resulting in an overall impact on depreciation, duly accounted for in this plan.

Asset Class	2018	2022 - 2023	% Change
Parks and Reserves	\$4,516,354.00	\$7,961,653.00	76.30%
Road Infrastructure	\$101,847,400.00	\$133,216,965.00	30.80%
Buildings and Land	\$52,054,100.00	\$51,630,600.00	-0.80%

Table 2 Asset Valuation Changes

Effective asset management is crucial for sustainable service delivery. Maintenance, renewal, and replacement of existing assets, and acquiring new assets must be planned and prioritised with a long-term view aligned with the Strategic Community Plan.

New discretionary capital projects will require whole-of-life costing and a proposed funding model before endorsement and inclusion in future revisions of the LTFP. This ensures a financially sustainable approach to renew and expand the Shire's assets to meet ongoing community needs.

Organisational Capacity

Organisation capacity is influenced by external labour market conditions and housing shortages, making it challenging to attract and retain staff, especially when competing industries offer higher wages. This issue is particularly significant in the context of the LTFP, as difficulties in securing skilled personnel can impact the plan's effective execution, as is also the case for our other long term plans and strategies. Addressing this challenge may involve exploring competitive remuneration packages, implementing targeted recruitment strategies, and investing in training and development programs to cultivate and retain a skilled workforce.

The Reserve Bank's February 2024 Statement on Monetary Policy noted a significant surge in wage growth due to tight labour markets and inflation.

Specifically, public sector wage growth in WA increased by 4.7% over the year for the December 2023 quarter, making it one of the fastest growing wage indexes in Australia. For local governments, the surge in wage growth highlighted by the Reserve Bank's August 2023 Statement on Monetary Policy carries several implications. Firstly, it may lead to increased pressure on local government budgets as they may need to allocate more funds for wages to retain talent and remain competitive in the labour market. Additionally, higher public sector wage growth could influence wage expectations across other sectors, potentially contributing to inflationary pressures. Local governments in regions experiencing significant wage growth, such as Western Australia, may face heightened challenges in managing costs and delivering services effectively amidst increased demand and competition for skilled workers.

Economic

Assumptions

Indexing

This LTFP relies on various financial parameters for modeling, including anticipated movements in price indices, wage growth, interest rates affecting investment returns, and borrowing costs. Significant unexpected changes in any of these parameters or government policy directions can impact the financial modeling and may require a review of the LTFP.

Year	1	2	3	4	5	6	7	8	9	10
CPI YTD (Dec)	4.5	4.5	3.5	3.0	3.0	3.0	3.0	3.0	3.0	3.0
Revenue										
Fees and charges	3.00%	3.00%	3.00%	3.00%	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%
Interest earnings	4.50%	4.00%	4.00%	3.50%	3.50%	3.50%	3.50%	3.50%	3.50%	3.50%
Other revenue	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%
Expenses										
Employee costs	4.50%	4.50%	3.50%	3.00%	3.00%	3.00%	3.00%	3.00%	3.00%	3.00%
Materials and contracts	3.50%	3.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%
Utility charges	3.00%	3.00%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%
Insurance expenses	3.50%	3.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%
Other expenditure	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%	2.00%

Table 3 Indexing Assumptions applied to LTFP

Consumer Price Index

The Consumer Price Index (CPI) is just one of several index measures used in forecasting the LTFP. In the 2021 LTFP, assumptions were based on an annual CPI of 1.0% (Perth, March 2021) with a longer-term expectation that inflation would remain within the RBA's target band of 2-3%. However, the actual inflationary trend has been markedly different.

Within 21 months, CPI soared to a high of 8.3% (Perth, Sept, 2022). By September 2023, Perth CPI started to regress but was still at an annual rise of 5.8%. In its December 2023 Statement on Monetary Policy, the RBA expressed concerns about the slower progress in bringing inflation back to the target range. The Reserve Bank Board acknowledges the risk of prolonged higher inflation has increased.

Given this context, this plan adopts the December 2023 Perth CPI as a reference for the first two years, assuming a continued decline in inflation.

Local Government Cost Index

The Local Government Cost Index (LGCI), developed by the Western Australian Local Government Association (WALGA), offers a comprehensive measure of specific cost movements affecting local government operation.

It incorporates various economic components such as the

WA Wage Price Index, road and bridge construction, non-residential building, CPI, machinery and equipment, electricity and street lighting, insurance and utility costs. The LGCI provides the best possible indication of how these cost movements impact local government. It distinguishes between operating and capital costs and utilises price indices that closely align with the goods and services used by local governments. In developing the LTFP these measures are used to help guide specific elements of the indexing applied LTFP, while the WA CPI index is used for the broader categories of rates and wages.

Population Growth

The latest population forecasts in WA Tomorrow Population Report No. 11 offer demographic projections by age and sex for Western Australia and its regions. These forecasts, recognised as the official projections by the WA State Government for 2031, suggest that our Shire will have a population of 7,090 by 2031. This projection implies an annual average growth rate of 1.3% over the next decade.

As of the 2022 Estimated Residential Population data released by the Australian Bureau of Statistics (ABS), the population was 6,537. Demarks current annual population increases reflects a return to the longer-term average net migration of approximately 70 new residents per year after experiencing a short-term spike during COVID-19.

Key Elements of the Financial Statements

The LTFP ensures a balanced budget for each financial year. Projected operating income and expenditure are expected to increase steadily over the next ten years. Any surplus generated at the end of the year will be carried forward and allocated to reserves. These reserves will then be used to fund expenditure on asset renewal, replacement, and provision of new assets, thereby enhancing our Shire's long-term financial sustainability.

Revenue

Rates

Revenue from rates is structured to consider both the CPI and the pressing need to address the funding gap for asset renewal. To keep a lid on rates so they align simply with CPI, which would be optimal, the LTFP prioritises tackling this renewal gap from the outset, aiming to eliminate it within a decade. This strategic approach ensures that rates will only need to adjust according to CPI in the future, demonstrating responsible asset management and avoiding burdening subsequent councils to resolve the issue. In line with the asset renewal priority, total rates revenue is set to grow by 8% in 24/25, followed by four years of total rates revenue at 2% above the LTFP forecasted CPL

In line with population growth forecasts, this plan assumes a revenue item for interim rate growth of \$26,000. This is based on the trend of the recent interim rates growth for Denmark. Currently, in the LTFP, this is indexed by 8% in 2024/25 and then by 4.5% on that base in 2025/26.

As at the time of budget adoption (2023/24), our Shire has 218 vacant rateable properties with Gross Rental Value (GRV) above the minimum rate threshold and 210 properties attracting the minimum rate, totalling 428 properties. As these properties are developed to accommodate population growth, the valuation used for rating purposes and the rate yield will increase accordingly.

Operating Grants

The central annual operating grants received are:

- Grants Commission General
- Grants Commission Roads
- Main Roads Direct (untied)

Additionally, our Shire receives significant income annually through the Regional Road Group. This funding is allocated competitively based on predetermined criteria.

It's crucial for our Shire to ensure that applications made are renewal-focused and well-aligned with the selection criteria to ensure ongoing funding success under this program.

Failure to maintain funding levels under this program will impact our Shire's ability to pay for our workforce and achieve the desired expenditure levels required under the Strategic Asset Management Plan.

Fees & Charges

Fees and charges within the LTFP are structured with an initial 3% increase for the first four years, followed by a 2% annual increase in subsequent years. It's important to note that some fees are statutory and determined by relevant government bodies. Some primary revenue-earning fees and charges include:

- Waste Management
- Lime Sand Sales
- Peaceful Bay Leases
- Parry Beach Camping Fees
- Department of Transport Licensing Commission

Waste Services

Our Shire endorsed a Waste Services Action Plan in 2021, detailing steps to transition to a more sustainable waste services model. The waste services levy, currently set at \$75.00, is a minimum levy on all rateable properties and is reviewed annually.

Peaceful Bay

Our Shire controls and manages Reserve 24510, leasing it for periods not exceeding 21 years. With 203 leases generating approximately \$419,000 in annual revenue in 2023/24, our Shire is currently renewing leases.

Ocean Beach Lime Pit

The Ocean Beach Lime Pit provides a valuable resource to the agricultural sector while generating income for our Shire. Under license, our Shire can extract a maximum of 15,000 m3 of lime annually, with actual extraction typically ranging between 6,000 and 12,000 m3 based on demand. Lime sales are indexed in line with Fees and Charges, and our Shire will explore alternative income streams as the deposit at this site is eventually exhausted.

Interest Earnings

The LTFP forecasts interest earnings based on Western Australian Treasury Corporation projections for the next three years. Interest earnings are forecasted at 4.5% for 2024/25, followed by two years at 4% and the remaining years at 3.5%. These forecasts align with expected movements in CPI and will be subject to review in future versions of the LTFP.

Proceeds from Asset Disposal

The 2021 LTFP included assumptions about the sale of five industrial land blocks in the Denmark East Light Industrial Area. Due to higher-than-expected demand, most lots were sold well ahead of the forecasted timeline. This plan captures land sales included in the current 23/24 adopted budget and accounts for pending sales agreements in the coming year. One remaining lot has been set for sale in 2025/26 in the LTFP.

Other Revenue

Most other income revenue relates to reimbursements, rebates, and the sale of miscellaneous items, which are linked to specific expenditure levels to some extent. The plan assumes a 2% annual increase over the life of the plan.

Capital Grants and Subsidies

Non-operating grants are project-specific and linked to specific capital project budgets, adjusted in line with the scheduling of these projects. It is important to note that reliance on grant funding carries risks as funding streams may not eventuate, be highly competitive, or result in a lesser amount than anticipated.

Expenses

Employee Expenses

Employee expenses are indexed at 4.5%, in line with CPI, to accommodate known or expected changes, including salary and wage increases, as well as changes to the Superannuation Guarantee. Our Shire aims to gradually expand its workforce to meet our community's anticipated growth, funding the equivalent of one additional operational position every second year.

Materials and Contracts

Materials and contracts expenses are generally indexed at 3.5% for the first two years and then at 2.5% for the remainder of the plan.

Utility Expenses

Utility expenses are modelled using the LGCI Index, with a 3% indexation for the first two years and 2.5% for the remainder years. Additional solar installations and smart energy conversions, such as LED lighting, are expected to reduce expenses by \$250,000 over the next 20 years.

Insurance expenses are modelled with a 3.5% indexation for the first two years and 2.5% for the remainder of the plan. However, recent natural disasters may necessitate revising these projections in future iterations of the LTFP.

Other Expenditure

These expenses are estimated to increase 2% on the base (previous) year.

Depreciation

Depreciation of assets such as property, plant, equipment, vehicles, infrastructure, and land is accounted for using a straight-line method. Recent valuations resulted in a significant change to depreciation levels, with a flow-on effect on the long-term finances.

Debt Management

Loan borrowings are used to meet long-term community needs sustainably. This plan requires new borrowing of \$2.82 million over the ten-year term for the following:

Denmark Surf Club \$575,000

Denmark Depot redevelopment - \$1,650,000

Berridge Park redevelopment - \$600,000

This plan will see our Shire's debt peak at \$4.21 million in 2026/27 and have a loan balance of \$1.28 million at the end of 10 years. This conservative approach to debt management will allow additional borrowings if required in future years.

Reserve Accounts

Financial reserves play a crucial role in sustainably managing a local government's long-term financial stability. They provide a mechanism to spread or smooth the economic impacts of relevant projects, avoiding the need for irregular rate movements. Over ten years of accumulating funds in reserve accounts enables our Shire to meet future community demands. The table below outlines the reserves and their respective purposes.

Name of Reserve	Purpose of the reserve
Aquatic Facility Development Reserve	to be used for the development of aquatic facilities
Denmark East Development Reserve	to be used for the Denmark East Development Project
Employee Entitlements Reserve	to be used to fund employee leave entitlements as required
ICT Reserve	to finance the acquisition and enhancement of information technology and digital service delivery initiatives
Infrastructure Reserve	to be used for the purchase, construction or upgrade of infrastructure, including land and buildings
Legal Contingency Reserve	to fund unanticipated legal expenses over budget in any given year
Lime Quarry Rehabilitation Reserve	to maintain or rehabilitate the lime quarry
Lionsville Reserve	to be used for the repayment of the Lionsville loan fund
Parry Inlet Reserve	to develop the Parry facility, including Parryville Hall, and maintenance of adjoining recreation reserves
Peaceful Bay Caravan Park Reserve	to be used for future requirements concerning site and end-of-lease conditions, including adjoining recreation reserves
Peaceful Bay Reserve	to be used for future requirements, including those linked to the asset management plan
Plant Reserve	to be used to fund major plant purchase requirements
Recreation Centre Reserve	to be used for upgrades to the Recreation Centre facility, including equipment
Rivermouth Caravan Park Reserve	to be used for future requirements concerning site and end-of-lease conditions, including adjoining recreation reserves
Strategic Reserve	to be used to fund strategic projects as identified in the Shires Strategic Community Plan and Corporate Business Plan as required
Waste Services Reserve	to be used for the purpose of providing for the proper performance of all or any waste services provided by the Council

Table 4 Reserve Movements

Over the ten-year period, the total reserve balances are projected to increase from \$4.13M to a closing balance of \$6.12M. This represents a 48% increase in reserve funds over the life of the LTFP.

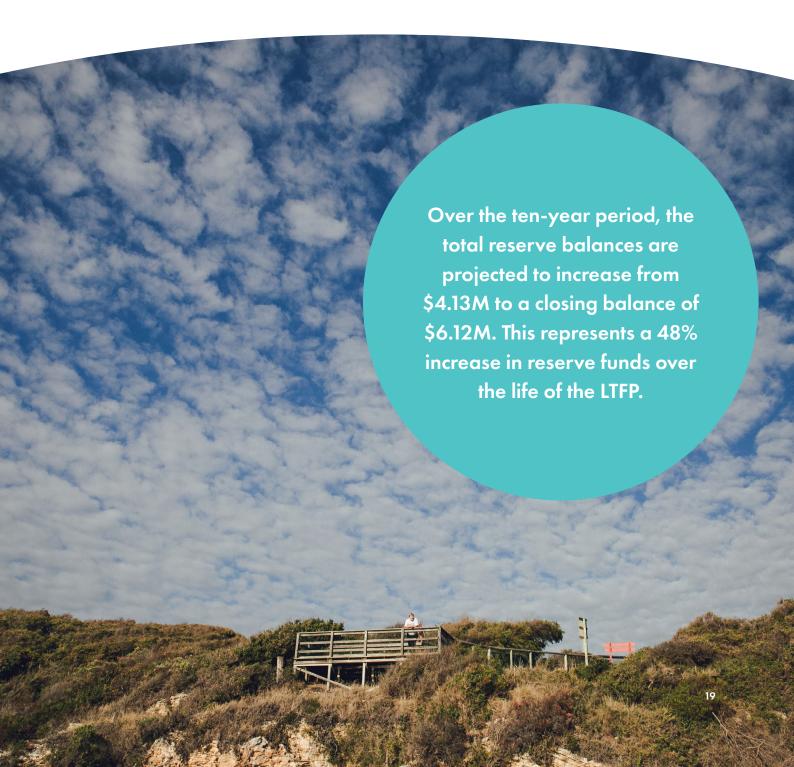

Capital Expenditure

The capital expenditure outlined in this plan aims to immediately improve the renewal expenditure on our Shires' infrastructure, property, plant, and equipment assets. It is designed to meet future infrastructure service requirements by renewing or upgrading existing infrastructure and creating new assets. The funding required for this plan has been analysed to ensure our Shire's financial capability to deliver the expected services and facilities to the community.

This plan provides a feasible capital works program totalling \$58 million over ten years. It relies on substantial grants from State and Federal governments to fund significant projects. Failure to secure these funds may result in the postponement or cancellation of important projects (See Appendix 2—Capital Works Program).

Asset Renewal Funding Ratio

This ratio looks to the future and asks, "Is there sufficient funding allocated for the renewal and replacement of our assets?" It is calculated using Net Present Value (the value of future dollars). Achieving an asset renewal ratio of 1.01 or 101% over the next ten years suggests that there's adequate funding available in our LTFP to cover the costs of asset renewal, indicating we are well prepared financially to maintain and replace our assets as needed.
