Election Type	Ordinary

GILLIES, Kelli

I work in the education sector, run a small business and have previous local government experience. I oppose the lack of transparency behind Council's decision to increase rates and for the rate hike imposed on the tourism and commercial rural sector while having no adequate Tourism Strategy or visitor servicing model. Understanding the financial challenges for families and local businesses is crucial during these uncertain times. Financial stability allows for Denmark's growth and reinforces trust in the local government system.

I love Denmark and all that it offers, I am dedicated to delivering positive outcomes for residents and local businesses, and will protect what is important for our community.

If elected I will be a genuine, motivated and strong local voice that represents you!
