Nominating for	<b>Councillor for Town Ward</b>
Election Type	<b>Ordinary</b>

---

## CARMAN, Donna

I came to Denmark with my three children 15 years ago and love being a part of this vibrant, creative, caring community.

I am passionate about the environment and actively care for local bushland through my work with the Environment Centre and the Weed Action Group.

I've had an interesting working life - I've been a writer in residence, worked in hospitality, project management, not for profit governance and community education. I'm an advocate of social equity and inclusion.

I want to continue engaging with locals at a grass roots level, exploring solutions to some of the challenges facing our community, such as sustainable tourism development.

I believe I could bring a unique voice to council and if elected, would welcome the chance to make a meaningful contribution to our shared future.
