SMITH, Dale

I have lived in Denmark since 2011, and my parents moved to Denmark in 2004. My mum June is a local artist. My wife Louise works at the high school, and we have 2 young children. I have owned businesses in several countries in the last 30 years and currently own The Floating Forest. We are passionate about Denmark and have committed ourselves to staying here with our family. I love the diversity of cultures/ ideas, art and nature of this amazing region. Although I have not been involved in local government before, I believe that this may actually be a positive, as I can bring a fresh perspective to the table. I believe it is necessary to build a sustainable future. If elected I would work with the community and the Shire to help build a sustainable Denmark going forward.
