

## DELIVERING ON COMMUNITY PRIORITIES

Thanks to more than 1700 community members who shared their feedback and ideas during the process of developing our Strategic Community Plan, we know where our priorities should lie.

We're focused on continuing to deliver on the priorities you set for us:

- Local roads and storm drainage
- Services and facilities for youth
- Environmental conservation and protection
- Economic development
- Housing availability and affordability
- Engagement and decision-making

Your ratepayer dollars go directly towards this effort to deliver ongoing services in line with community priorities.
