## **BENSON, Raymond (Ray)**

Born in our beautiful shire my wife and I raised 5 children here. I have worked in various roles throughout the community, farming, fishing, retail and hospitality. Currently employed at the Denmark Ag College. I will provide solid representation for our ward. I will give open and honest views around local issues and listen carefully to local residents. Talking to ratepayers in our ward many feel isolated from shire discussion, disappointed by large rate increases and a lack of resolutions to ongoing problems. My interests include camping, fishing, everything sport, and as I get older my interest in writing, environment and political issues are growing. A proud family man, for many years I have been involved in local sporting and fundraising events. My goal is to make a difference in our ward as right now there are more questions than answers, with your support, we can turn that around.
