## PHILLIPS, Janine

I came to Council in 2016 following the resignation of our Ward Councillors; the Shire was on a Government watch list for non-compliance. We now have a strong, cohesive Council our Strategic Community Plan and Corporate Business Plan are in place, our Long Term Financial Plan and Asset Management Plan are due to be adopted by the end of 2019.

I have sound knowledge of the issues in my Ward and will continue to advocate strongly at the table to get the best possible outcomes for Ratepayers.

I bring extensive experience in tourism, farming and fishing. I understand primary industries are coming under increased pressure caused by a drying climate and that all these industries depend heavily on careful management and preservation of our unique natural resources and environment.

I am standing for re-election because of my passion for the area I live in and I care about my community.
