GIBSON, Kingsley

For two years I have been proud to be part of a highly functional and cohesive council, focused on delivering the Community Strategic Plan.

Many good things in our community are happening or are about to happen; with more money for roads going forward as well as major projects like the new surf club, completion of the Plane Street precinct, a full review of our local planning strategy, expanded aged-care facilities and ongoing support for tourism and the arts being just some examples.

I am focused on the community and outcomes that benefit us all. I am currently the council representative to the Chamber of Commerce, Ratepayers & Residents and DACCI; I sit on the Paths and Trails (chair), Audit (chair), Waste and Sustainability committees / working groups.

I stand for careful planning, good governance, financial responsibility and thriving, sustainable communities across our whole shire. Please vote to re-elect me.
