## JONES, Steve

Council decisions have significant influence on your prosperity and the wellbeing of our Shire. Community minded strategic leadership, backed by strong governance and financial skills, must underpin these decisions.

My life experiences, from humble apprentice beginnings to co-founder/CEO of Plexal Group in 2002, bring these attributes to Council. In 10 years we grew to 200 employees, went international and managed \$100M+ projects.

Esther and I moved to Denmark in 2014 and built our home using local businesses. We have a small agriculture consultancy business and I manage our commercial property and dairy farm investments.

From 2015, increasingly active in our community as the Denmark Ag College Board Chair, Denmark Primary School Board Community Member and providing pro bono business coaching to several local businesses.

If elected I will provide you procedural fairness, pragmatic 'rules based' decision making that is financially responsible and actively find ways to increase grant funding.
