GEARON, Ceinwen

In 2015 Denmark looked to new Councillors for fresh ideas and perspectives. Since then I have worked collaboratively, strategically and effectively with Council, Staff and the Community to foster the development of the Strategic Community Plan and a robust set of associated documents which has led to improved governance and culture in the Shire. We have a number of exciting and well-developed plans for future projects including the redevelopment of the Denmark Surf Life Saving Club and the Plane Tree Precinct and our upcoming comprehensive review of the Local Planning Strategy will ensure that it responds to the growing needs of our community and identifies future opportunities for an inclusive and vibrant Shire. It has been a great pleasure and privilege to serve this community for the last four years, both as a Councillor and as Shire President, and I ask for your continuing support in the upcoming election.
