GILMOUR, Nelson Blake

I love living in Denmark and want it to become an even more sustainable, liveable town; where absolutely everybody feels welcome, local businesses thrive, and our natural environment and community services are protected.

Our town should serve people of all ages and backgrounds and celebrate diversity. I support cultural, cottage and creative industries and enabling our community and special interest groups to keep enriching our town with the incredible work that they do.

Our council should protect local heritage, acknowledge the past, and act for our future. I want to balance growth in tourism with community investment and make certain that the asset maintenance plan is delivered well, for us. Let's also lead on recycling with a transparent, shire-wide, commercial recycling platform.

I offer skills in policy, community engagement and creative collaboration. I'm committed to being accessible, transparent and accountable.
