

1. OCEAN BEACH

Access via Ocean Beach Rd.

A sand bar at the entrance to Wilson Inlet provides a roosting site for numerous seabirds and some waders. Look for Red-capped and Hooded Plover and Rock Parrot.

Prawn Rock Channel, opposite Ocean Beach Caravan Park, also provides good opportunities for waders and waterbirds. A walk across the bridge to Prawn Rock island may be worthwhile.

Common Sandpiper

2. WILSON INLET

NB A telescope is an advantage for viewing shorebirds. One of the most extensive inlets on the south coast. Boat launching sites are available at **Rivermouth Caravan Park and at Poddyshot (2a)**, off Minsterly Rd, towards the south end of Ocean Beach Rd. Many species of waterbirds can be found throughout the year. Exposed sand/mud flats around the eastern shoreline provide extensive feeding habitat for migratory waders (Oct - April), which are known to be diminishing world-wide, largely due to loss of feeding habitat.

Morley Beach - Sleeman River mouth (2b) can be accessed from South Coast Highway by Morley Rd. Red-necked Stint, Sharp-tailed Sandpiper, Common Greenshank, avocets & stilts are regular visitors. Well worth a visit.

Nenamup Inlet and Youngs Lake (2c). South of Morley Beach Nenamup Inlet is good for waterbirds, and waders if water is low enough, but access is difficult - seek local advice (see contacts). For Young's Lake, which has deeper water, park at the school bus turn-around on Eden Rd (at the sharp bend 50m before the floodgates on the drain which connects Nenamup & Youngs). Follow the short track leading off to the north. Look for grebes, cormorants and ducks.

Great Crested Grebe

West of the Hay River bridge (2d) on the South Coast Highway a track provides access to the mouth of this river. Summer-autumn access only. Look for Southern Emu-wren as well.

Birdwatching around Denmark

There is an excellent range of birding habitats in the Denmark area where over 160 species of birds have been recorded. Ten of the fourteen south-west WA endemics can be found locally.

This guide lists recommended places to visit.

3. RAILWAY WALK TRAILS

Wilson Inlet Heritage Trail (3a) An 11km trail follows the old railway track along the northern shores of the inlet from the mouth of the Denmark River to Hay River via Rudgyard - Crusoe Beach. There are shelter huts, seats and look-outs along the way. Birds to be seen include Brown Quail, Marsh Harrier, Splendid and Red-winged Fairy-wren and Red-eared Firetail.

Denmark-Nornalup Rail Trail (3b) follows the old railway to the west from the footbridge near Rivermouth Caravan Park. Similar species can be found along this trail.

Brown Quail

4. MOKARE WALK

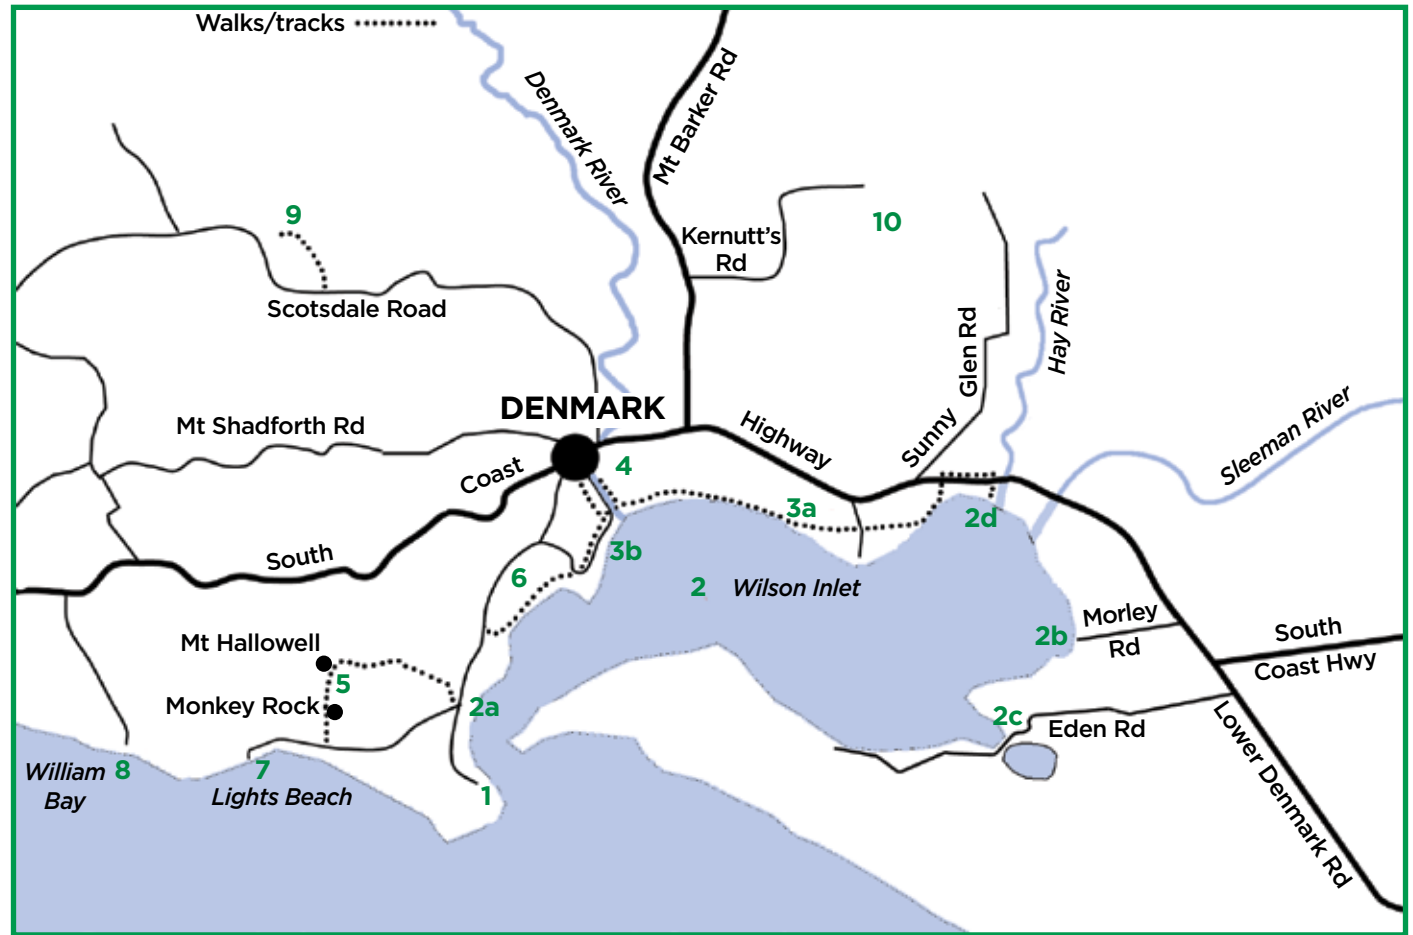

This is a formed walk/cycle trail following the banks either side of the Denmark River between the road bridge on South Coast Highway and the entrance to the Rivermouth Caravan Park. The diverse flora includes overhanging paperbarks, Karri and banksias where many birds can be seen, including Nankeen Night-Heron, White-winged Triller and Red-eared Firetail.

Red Eared Firetail

Eastern Osprey

5. MT HALLOWELL & MONKEY ROCK

Please use boot-cleaning stations to reduce risk of dieback infestation.

The Sheila Hill Memorial Trail (part of the Bibbulmun Track) links Ocean Beach and Lights Roads through Mt Hallowell and Monkey Rock. Park at either end - on Lights Beach Rd near Monkey Rock or on Ocean Beach Rd near Heather Rd. This trail accesses Marri, Jarrah, banksia and sheoak forest for Grey Fantail, Golden Whistler and White-browed Scrubwren. A short steep climb on the south side of Mt. Hallowell provides access to Monkey Rock, a large granite outcrop with superb views over the surrounding Karri trees, the south coast and Wilson Inlet. Watch out for Eastern Osprey, Square-tailed Kite, Painted Button-quail and Grey Currawong.

6. LITTLE RIVER WALK TRAIL

From the corner of Campbell Rd (off Ocean Beach Rd) and Inlet Drive, a walk/cycle trail winds through Karri trees at the foot of Weedon Hill and on to the subdivision of Little River. Look for Brown Quail, Red-winged Fairy-wren and Red-eared Firetail.

Red-winged Fairy-wren

7. LIGHTS BEACH

Approximately 11km from town via Ocean Beach Rd and Lights Rd. Look for Rock Parrot, oyster-catchers, Southern Emu-wren & honeyeaters in heath, and seabirds in winter.

Southern Emu-wren

8. WILLIAM BAY NATIONAL PARK

Approximately 24km west of Denmark, via South Coast Highway & William Bay Rd. One of Western Australia's first national Parks, this includes heath-covered coastal dunes overlooking a beautiful coastline. Safe, sheltered swimming can be enjoyed at Green's Pool. Look for Rock Parrot, Southern Emu-wren, Tawny-crowned Honeyeater, Grey Butcherbird and Grey Currawong.

9. HAREWOOD STATE FOREST

About 6.5 km from Denmark along the Scotsdale Rd a short walk takes the visitor through tall Karri forest. There are picnic tables at each end of the trail. Among the birds to be seen are Fan-tailed Cuckoo, White-breasted Robin, Red-eared Firetail, Rufous Treecreeper and White-browed Babbler.

Rufous Treecreeper

10. KERNUTTS & SUNNY GLEN ROADS

These roads lead through cleared agricultural land and Jarrah/Marri forest located to the north-east, between the Denmark-Mt. Barker Road and the South Coast Highway, approximately 6km to 10km from Denmark. Look out for Crested Pigeon, Western Yellow Robin, Varied Sittella, Grey Currawong and Rufous Songlark.

Western Yellow Robin
