

NOTE:
Volumes apply to date of survey only.

This plan has been prepared for Shire of Denmark from a combination of field survey and existing records for the purpose of showing the existing surface of the lime pit. It should not be used for any other purpose.

The title boundaries shown hereon were not verified or marked at the time of survey but are derived from the SCDB Jan 2021. They are estimated to be accurate only to +/- 0.5m. This plan should not be used for building to boundary, or to prescribed set-backs, without further boundary survey.

Before starting any demolition, excavation or construction on the site, the relevant person should make an independent and updated enquiry of 'Dial Before You Dig' and any relevant service providers to ascertain the existence of services (if any) and the accurate location of those not surveyed at the time of preparing this plan (or data).

No responsibility can be accepted by Harley Dykstra for any damage caused to any underground service or any loss or injury so suffered if enquiry and verification have not been completed in accordance with this note.

AHD connection made via VRS GNSS survey methods.

Contractors to verify all survey control marks to be correct (by field checks) prior to utilisation for construction purposes.

This note is an integral part of this plan or the data as transmitted. Failure to reproduce this note on providing this plan or accompanying data or any part thereof to any third party will render this plan or data invalid.

Harley Dykstra disclaims any liability whatsoever and howsoever caused for loss or damage arising from any party who uses or relies upon this plan for any purpose other than that for which it was intended.

In any event the liability of Harley Dykstra Pty Ltd is limited to the resupply of the relevant goods and/or services or the reasonable cost of resupply.
