

Plant Propagation Workshop #2

Presented by Shire of Denmark
Revegetation Officer Mark Parre

FREE EVENT 9am til noon
Saturday 23 October 2021

Revegetation Nursery
Shire Works Depot
Zimmerman St, Denmark

Morning tea provided, please
wear enclosed shoes.

Due to popular demand, the Shire is hosting a second Plant Propagation Workshop, in case you missed out on attending the first one held in July.

As part of the Shire's Sustainability community-oriented Environmental Education Program, this Plant Propagation Workshop will cover seed and cutting propagation techniques utilising all local native species.

The plants propagated during the workshop will be utilised for revegetation projects across the Shire. This is your chance to contribute to the on-going revegetation work throughout our Shire reserves.

Places are limited. Register to attend with Shire of Denmark Sustainability Officer Yvette Caruso on (08) 9848 0300 or enquiries@denmark.wa.gov.au
