

Location	Mt Hallowell access tracks east
Area/length	2.3km
Category	Mechanical Works
Instructions	Maintain existing fire access tracks to a minimum of 3m wide where possible in existing clearing, and with 0.5m low fuel either side, plus remove over-hanging vegetation to 5m high. Upgrade fire access track to trafficable surface by grading with existing scree. All debris that is contributing to fuel load within 1m of track, including fallen branches, to be mulched or removed from site.
